# ACUBIS GLASS CANOPY EXTENSION

Call: 0131 603 50 60 | [ecobifold.co.uk](http://ecobifold.co.uk)

The Acubis flat canopy is a winner in terms of design and functionality, ideal for a home looking for a stand-alone unit or an extension.

With the option of vertical glass panels, the Acubis Glass Canopy becomes a non-insulated glass house to protect you from all types of weather conditions. The non-insulated profile systems' internal structural components give the canopy an air of elegance.

## ACUBIS KEY FEATURES

-  Made of aluminium.
-  Can be set up as a free-standing construction or integrated into the existing house.
-  Invisible two-degree roof pitch.
-  Available in a wide range of colours.
-  Accessories available to add on.
-  Durable and easy to maintain.

## ACUBIS ACCESSORIES

**Solar protection:** High-quality awnings offer perfect sun protection: installed on top, vertical or as an under-glass awning.

**Lighting:** Make the most of the evening – built-in LED spotlights provide atmosphere and ambience.

**Radiant heater:** The Heatscope™ designer radiant heater has high-end designer aesthetics and modern infrared technology to help keep you cosy and warm.

**Control system:** Enabling you to control your awning and lighting wirelessly.

# ATRIUM GLASS CANOPY EXTENSION

Call: 0131 603 50 60 | [ecobifold.co.uk](http://ecobifold.co.uk)

EKCO's SDL Atrium plus glass canopy will transform your patio into a sanctuary of quiet and relaxation.

Greater transparency and complex custom shapes can be implemented without any problem due to the SDL Atriums' span of up to 5.72m and a roof depth of up to 6.37m.

## ATRIUM KEY FEATURES

-  Made of aluminium.
-  Roof pitch 5 to 45 degrees.
-  Available in a wide range of colours.
-  Accessories available to add on.
-  Durable and easy to maintain.

## ATRIUM ACCESSORIES

**Solar protection:** High-quality awnings offer perfect sun protection: installed on top, vertical or as an under-glass awning.

**Lighting:** Make the most of the evening – built-in LED spotlights provide atmosphere and ambience.

**Radiant heater:** The Heatscope™ designer radiant heater has high-end designer aesthetics and modern infrared technology to help keep you cosy and warm.

**Control system:** Enabling you to control your awning and lighting wirelessly.

# CERO ALUMINIUM SLIDING DOORS

Call: 0131 603 50 60 | [ecobifold.co.uk](http://ecobifold.co.uk)

Cero offers every possibility required from architecturally demanding buildings from a constructive and creative point of view.

Its slender frames and profiles help to make the elements as transparent as possible and dissolves the boundary between inside and outside. The sight lines are kept to just 34 mm, resulting in a symmetrical and minimalist design that is underlined by the 98% glass composition.

## CERO KEY FEATURES

Available in a wide range of colours.

Multiple models available: Cero I, Cero II, Cero III, Cero IV.

The range of combinations for cero sliding, fixed and corner elements is almost limitless.

Cero models offer an astounding degree of creative freedom in design and are suitable for any floor plan.

Flexible opening options.

Durable and easy to maintain.

## CERO BENEFITS

**Maximum Transparency:** Sight lines kept to just 34 mm, resulting in a symmetrical and minimalist design underlined by the 98% glass composition.

**Large Panel Sizes:** Even with a glass area of 15m<sup>2</sup> and a weight of up to 1000 kg per panel, our extra-large cero sliding window can still be opened and closed with no problem.

**Motorisation and Group Operation:** The sliding panels can be fitted with a fully automated operating system, including electro-mechanical locking and unlocking, which offers the user interdependent control of several panels via a control unit.

**Security:** The cero sliding door has been tested and certified in line with the highest security standards and meets anti-burglary protection.
